FREE RESOURCES FOR HOME GROUPS AND CELL GROUPS

In a bold response to the economic downturn one Christian organisation is giving away its resources as digital downloads.

Focus produces a range of study materials for home groups and cell groups, including 'Facing the Challenge of Our Times,' 'Facing the Challenge of Television' and 'Facing the Challenge of Other Faiths.'

Focus' 'Meals with Jesus' course – based on Luke's Gospel – has always been a free download, but from the start of this year Focus has made all its courses available free of charge.

Said Focus' Director David Couchman, *'We hope that by making these courses freely available they'll be used more widely around the world by people who can't afford to pay for quality resources. They may even be used more in the UK by churches and home groups that are feeling the squeeze.'*

Focus' courses can be downloaded from www.facingthechallenge.org
